

Please do nothing to diminish Indiana law concerning telemarketers.

Indiana's telemarketing laws with it's no call list actually works.

Before Indiana law was enacted I was constantly disturbed by unwanted telemarketing calls. I got on average 20 calls a week.

I now receive maybe 1 a month.

Please don't do anything federally to let these telemarketers start calling me again.

Use Indiana's law as a model and make things more difficult for these people to call.

Again, don't do anything federally to water down Indiana's currently in place and working laws.

If you want to work on something, work on E-mail SPam. That is basically the same problem.
